THE FUTURE OF FENCING

Kookaburra Fencing Ltd are proud to introduce Gramline™ fencing and GramLAT™ lattice to the UK and EU markets. These unique products have been tried and tested, in Australia, for over 20 years and have been shown to provide **VERSATILITY, STRENGTH and LASTING GOOD LOOKS.**

Made from high tensile Colorbond® steel Gramline™ fencing and GramLAT™ lattice will provide you with the strength and privacy you require, while the unique double sided saw tooth profile and three-dimensional steel lattice provides the same attractive appearance on both sides.

THE FUTURE OF FENCING

Gramline™

A Gramline™ fence gives you exactly the same profile on both sides of the fence. The saw tooth profile ensuring that you and your neighbour will equally enjoy the same attractive view. While the clean lines and lack of footholds make it difficult for any would be intruders to scale.

In addition to these benefits your Gramline™ fence will:

- * Never need painting
- * Require little maintenance
- * Have exceptional corrosion resistance
- * Be 100% Recyclable
- * Have the strength of steel
- * Be able to withstand harsh UV conditions
- * Flexibly integrate with GramLAT™ lattice

GramLAT™

The unique double sided 3 dimensional design of GramLAT™ lattice makes it the ideal choice to combine with your Gramline™ fence or as a stand alone screening solution. With the appearance of traditional timber lattice but with the strength and durability of Colorbond® steel you can be assured that your GramLAT™ lattice will look good year after year.

Additionally your GramLAT™ Lattice will:

- * Provide unique screening solutions
- * Never need painting
- * Require little maintenance
- * Have exceptional corrosion resistance
- * Be 100% Recyclable
- * Have the strength and durability of steel
- * Be able to withstand harsh UV conditions
- * Flexibly integrate with Gramline™ fencing

Colorbond®

Gramline™ fence and GramLAT™ lattice are manufactured from Colorbond® steel. This high tensile pre-painted steel has been specifically designed to withstand the harshest Australian weather conditions.

Colorbond® steel ensures that all Gramline™ and GramLAT™ products have both a long lifespan (up to four times that of ordinary galvanised steel) and a durable paint finish which is resistant to chipping, cracking and peeling.

THE FUTURE OF FENCING

INSTALLATION: Both Gramline™ fencing and GramLAT™ lattice will be installed by a Kookaburra Fencing approved contractor.

EASY TO MAINTAIN: To keep your Gramline™ fencing and GramLAT™ lattice looking good, a simple wash down with a soft bristle brush is all that is required. No more messy paints or smelly fencing preservatives, Kookaburra fencing is low maintenance so you can spend more time enjoying your garden.

More washing may be required in coastal areas or areas where industrial fallout can occur.

Avoid spraying the fence with garden or pest control chemicals.

FURTHER INFORMATION: For more information and technical specifications please see our web site at:

www.kookaburra-fencing.co.uk

All our Gramline™ and GramLAT™ Steel fencing products are made from durable, high strength Colorbond® pre-painted steel, the infill sheets are all covered by BHP Steel's 10 year warranty. Please note conditions apply.
