

# THE FUTURE OF FENCING

## Architectural Reference Specification

### 1.1 Gramline™

The Gramline™ fencing system standard panel width is 2370mm.

Standard panel heights:

- 1.5m (approx 5ft)
- 1.8m (approx 6ft)
- 2.1m (approx 7ft)

Component parts:

- 3 x Infill Sheets
- 2 x Posts
- 2 x Rails
- 15 x Self Drilling Screws

Infill Sheet Heights:

1490mm; 1790mm and 2090mm

Post Lengths:

2100mm; 2400mm and 2700mm

Rail Length:

2370mm

### 1.2 GramLAT™

GramLAT™ lattice is available in the standard 300mm x 2355mm size.

Additional Sizes Include:

- 450mm x 2355mm
- 600mm x 2355mm
- 750mm x 2355mm
- 900mm x 2355mm
- 1050mm x 2355mm
- 1800mm x 1200mm

Dual colour GramLAT™ lattice can also be manufactured.

### 1.3 Colorbond® steel

Based on a four stage process that starts with a Zincalume® steel base which has a conversion layer chemically applied, an epoxy primer is then baked onto the surface, after which a durable exterior grade topcoat is baked on.

### 1.4 Product Maintenance

Washing is recommended to be done at least every six months with a soft bristle broom and water.

More frequent washing is required in coastal areas and areas where there is high industrial fallout.

Avoid spraying the fence with garden or pest control chemicals.

Maintain a ground clearance of 50mm for the bottom rail.

### 1.5 Accessories

A range of accessories are available including kit gates and cast aluminium ball caps.
